

# NOTICE

Effective May 10, 2012

Due to the heavy fuel load, increasing temperatures and elevated fire danger burning has been closed for the season.

The following actions are prohibited within the Rockville/Springdale Fire Protection District:

- No open burning
- No campfires
- No discharge of fireworks within the district

We would also like to remind everyone to take great caution when conducting "HOT WORK" such as grinding, welding, cutting or any activity that can create spark and excessive heat, to be extremely careful. Take appropriate precautions **before** work begins. Clear flammables from the area, have a hose line charged and ready, wet down the area and have a fire lookout while work is being done and until work has cooled.

**REMEMBER YOU ARE RESPONSIBLE FOR ANY FIRE YOU START**

Thank you for your cooperation,  
Chief Ryan Ballard
